

Jesus told his disciples, "Love one another the way I have loved you." Jesus also said that the world will identify followers of Jesus by their love for each other.

Loving others does not always come naturally or easily. But with God's help, we aim to show each other the love the Christ shows us.

We can experience and demonstrate God's love in community. Freo Church is supporting and starting house churches and small groups to help people build and grow communities of authentic and loving relationships.

If you'd like to start or join a house church or small group, please contact us.

Jesus also calls us to love those who are often forgotten, rejected or neglected - the poor, the hungry, the imprisoned, the widows and orphans. Please consider ways you can show love to our struggling neighbours and make a positive difference in their lives.
